

Position of **HAAS Machinist**

WHO WE ARE InFocus Energy Services is a privately held Canadian company specialized in providing solution-driven products and services to the Oil & Gas industry. InFocus is Edmonton-based with a global reach. We design and manufacture a variety of downhole drilling and completion tools for the Oil & Gas industry, providing our domestic and international customers with innovative technologies and solutions. We are seeking an experienced full-time HAAS Machinist to join our Edmonton team.

Job Summary

- Setup and multi-task operation of CNC manufacturing
- Read and interpret engineering drawings, blueprints, charts and tables or study sample parts to determine machining operation to be performed, and plan best sequence of operations
- Compute dimensions and tolerances and measure and lay out work pieces
- Verify dimensions of products for accuracy and conformance to specifications using precision measuring instruments
- Maintain, repair and calibrate precision measuring instruments such as dial indicators, fixed gauges, height gauges and other measuring devices
- Other jobs as required

Job Type / Category

- Proficient in the fine tuning of machining parameters.
- Experience in Inspection & completing records using precision measuring tools, comparators and gauges applicable to the machining trade. This includes the inspection of straight and taper screw threads; Acme, Stub-Acme, API: Buttress Casing, Round Casing, Line Pipe Casing, etc.
- Proficient with Math and Geometry from the machinist trade.
- Versed in troubleshooting and debugging manufacturing processes.
- Assist as required with machine lock outs and preventive maintenance of the automated cell components.
- Working knowledge of metals, identification, mechanical properties and machinability.
- Proficient with reading & interpreting manufacturing drawings, Imperial and Metric dimensioning systems, symbols including: Geometrical tolerances, isometrics, sections-views, texture-finishing, limits and fits function.

Required Education, Skills and Qualifications

- Minimum 2 years of experience setting up Haas Lathes and operating CNC machines.
 - Programming machines is a plus.
 - Journeyman Machinist certification with interprovincial Red Seal endorsement is an asset
 - 2nd, 3rd , 4th year apprentices are also welcome to apply or;
 - A combination of experience and related to the industry diploma or certificate from an accredited post-secondary institution
- ARE WELCOME TO APPLY

Other

- Successful applicants may be asked to prove experience and competency during a hands-on interview(s) on the machines.

We thank all applicants, however only individuals selected for an interview will be contacted.
