

The Alberta Export Awards honour the success and innovation of Alberta companies who export out of Alberta and who make such a positive contribution to our economy. Sponsored in part by the Government of Alberta, the awards were designed to help facilitate further export growth by connecting emerging exporters to export enablers there to help celebrate export achievement.

InFocus Energy Services has been nominated for a 2017 Alberta Export award in the Oil & Gas Services category!

Held on November 23, 2017 at the Hyatt Regency in Calgary, the Alberta Export Awards are the province's only awards program paying tribute to the success and innovative approaches of Alberta export companies. Extending across industries and including both rural and urban representation, the awards are a celebration of the contributions exporters have made to both the provincial and national economy. The awards feature keynote speakers and industry leaders coming together to celebrate export excellence.
